**Introduction**

The Farmers Market Vendor Guide was developed to provide standards, guidelines and consistent information for farmers, food vendors and inspectors about food items that may be sold at farmers’ markets and conditions that must be met at the point of sale. The Guide represents a collaborative effort of the West Virginia Department of Agriculture (WVDA) and the West Virginia Farmers Market Association.

All Farmers Markets operating in West Virginia must register annually with the West Virginia Department of Agriculture (WVDA) at no cost. Consignment Farmers Markets, in addition to registering with the WVDA, are **REQUIRED** to obtain a food establishment permit from their local health department.

Depending upon the product sold, a vendor may be required to obtain a Farmers Market Vendor Permit from WVDA at a cost of $35 per year, and/or a Food Establishment Permit from the local health department. Vendors are exempt from obtaining a farmers market vendor permit if they are delivering their products to a consignment farmers’ market only, if they are selling fresh, uncut produce or non-potentially hazardous food products.

Contact the WVDA to determine if a Food Establishment permit is required, or for a quick reference, please see the enclosed chart on page 1 for permit requirements.

Definitions and Common Abbreviations

A Farmers’ Market is defined as
1. A traditional market in which two or more vendors gather to sell farm and food products directly to consumers.
2. An on-farm market or farm stand run by an individual producer that sells farm and food products.
3. An online farmers market in which two or more vendors collectively market farm and food products and retain ownership of these products until they are sold.
4. A consignment farmers market
5. A mobile farmers’ market in which two or more vendors sell farm and food products directly to consumers from a mobile unit

A Farmers’ Market Vendor is defined as a person or entity that sells farm and food products at a Farmers’ Market.

The Farmers’ Market Vendor Permit is a permit that is required for a Farmers’ Market Vendor that is selling a Potentially Hazardous Food. The permit can be obtained by registering with the WVDA on a form provided online and at the cost of $35. This permit is valid April 1 – March 31 and can be used statewide at all farmers’ markets. All vendors must display this permit in a conspicuous manner at the point of sale.

Food Establishment refers to an operation that stores, prepares, packages, serves, vends or otherwise provides food for consumption. Further clarification of the definition is available on the WV Secretary of State’s webpage, Code of State Rule 64-17, Food Establishment Rule. Food Establishment is defined by the FDA Model Food Code, which was adopted by the West Virginia Legislature April 2, 2008.

The local health department can provide information about permit fees. Maximum allowable permit fees for Food Service Establishments may also be found on the Secretary of State’s webpage, Code of State Rule 64-30, Fees for Permit Rule.

Food Process Authority is defined as a qualified person who has the knowledge acquired through appropriate training and experience in thermal processing and the process of acidified foods OR evaluates the thermal process for food and must have expert knowledge of thermal processes, hermetically sealed containers, and food microbiology, and have facilities to determine a safe process or process schedule for each product.

“Homemade Food” or “Cottage Food” is defined as a non-potentially hazardous food item, including a non-alcoholic beverage, that is produced and/or packaged at the private residence of the producer.
**Micro-Greens** are soil-grown plants with the stem and leaves to be consumed.

A **Mobile Farmers Market** is two or more vendors selling farm and food products directly to consumers from a mobile unit.

A **Non-Potentially Hazardous Food (NPHF)** is a food that does not require a time/temperature control for safety determined through pH and/or aw (water activity) testing.

A **Potentially Hazardous Food (PHF)** is a food that requires time-temperature control to keep the food safe for human consumption. A PHF contains moisture (water activity > 0.850), protein and a pH between 4.6 and 7.5. OR are foods that require time-temperature control to keep them safe for human consumption. In general, foods with a water activity greater than 0.85, contain protein and/or are slightly acidic (a pH between 4.6 and 7.5)

A **Sprouted Seed** refers to germinated seeds that are water grown with the stem and seeds to be consumed.

**Value-Added Food Products** are defined as crops or foods that have been enhanced through a variety of improvements, including processing, fortification, increased safety or nutrition, better packaging or extended storage. This term includes changes to a product form or added ingredients (i.e. maple syrup based fudge and candies, infused honeys and oils, comingled leafy greens to create a salad mix).

**WVDA** refers to the West Virginia Department of Agriculture.

**WVDHHR** refers to the West Virginia Department of Health and Human Resources.
Non-Potentially Hazardous Foods

A Non-Potentially Hazardous Food is a food that does not require a time/temperature control for safety determined through pH and/or aw (water activity) testing.
Non-Potentially Hazardous Foods

Where are you selling your product?

OR

**In-State**
*Sales Outlets: Farmers’ Markets, Retail/Wholesale, Direct to Consumer*

- Producers are NOT required to receive a Farmer’s Market Vendor Permit from WVDA
- Producers ARE required to follow the Cottage Food and Farmer’s Market labeling rules
  - Guidelines can be found in the 2019 Farmer’s Market Vendor Guide

**Out of State**
*Sales Outlets: Retail/Wholesale (out of state)*

This is considered “Interstate Commerce”

- All products must be produced in a commercial kitchen
- Producers are required to follow FDA labeling guidelines
  - Review services are available at productlabeling@wvda.us
- Contact your local DHHR/Health Department for required permits
If your product does not meet the definition of a “Cottage” or “Homemade” Food, please refer to Basic Labeling Guidelines on page 17.

**Cottage Food Labeling Requirements**

Products falling under the “Cottage” or “Homemade” Foods definition shall also meet the following conditions applying to the sale and delivery of these food items:

1. The homemade food item must be sold by the producer to the consumer, whether in person or remotely, or by an agent of the producer or a third-party vendor; and
2. The homemade food items must be delivered to the consumer by the producer, an agent of the producer, a third-party vendor, or a third-party carrier.

**Labeling requirements for Cottage Foods include:**

1. The name, home address, and telephone number of the producer of the homemade food item;
2. The common or usual name of the homemade food item;
3. The ingredients of the homemade food item in descending order of predominance; and
4. The following statement: "This product was produced at a private residence that is exempt from State licensing and inspection. This product may contain allergens."

**The information must be provided:**

1. On a label affixed to the package, if the homemade food item is packaged;
2. On a label affixed to the container, if the homemade food item is offered for sale from a bulk container;
3. On a placard displayed at the point of sale, if the homemade food item is neither packaged nor offered for sale from a bulk container;
4. On the webpage on which the homemade food item is offered for sale, if the homemade food item is offered for sale on the Internet; or
5. On a receipt or other document provided to the customer with the homemade food item.
NON-POTENTIALLY HAZARDOUS FOODS

Apple Butter, Sorghum, Molasses and Tree Syrups

Due to the high sugar content and the high temperature of the product when it is jarred, such products are considered to be non-potentially hazardous.

Products that contain additional ingredients (i.e. green peppers, nuts, infused vinegars, artificial sweeteners or added fruit juice or oils) are not included in this provision. These items need additional analysis to determine their salability at WV markets. See definition of "Value-Added."

Baked Goods

Baked goods and candy prepared in a home kitchen may be sold at a farmers market without a Farmer’s Market Vendor Permit as long as they are NOT potentially hazardous. Potentially hazardous baked goods include the following that must be time and/or temperature controlled:

- Meringue, custard or cream pies
- Cheesecake
- Cream-filled cupcakes, donuts, pastries
- Cream cheese-based frostings or fillings.

Products that are allowed for sale include cakes, fruit pies, yeast and fruit breads, and candy because these items are considered shelf-stable without refrigeration.

Whether these products do or do not present a hazard from a bacteriological standpoint, the food may be contaminated with filth or other extraneous matter. Therefore, the WVDA reserves the right to inspect the home kitchens based on observed health hazards or complaints from consumers.

WVDA requires that baked goods be pre-wrapped or protected from contamination during display and properly labeled as required by WVDA.
NON-POTENTIALLY HAZARDOUS FOODS

Fruits and Vegetables

To meet the current FDA Food Safety Modernization Act (FSMA) Produce Safety Rule requirements, farmers selling fresh produce must display a sign at their stall or table, visible to patrons, indicating the name of the grower or farm and their related contact information.

Fresh, uncut fruits and vegetables are considered non-potentially hazardous foods and can be sold without a Farmers Market Vendor Permit.

Micro-greens can be sold at a farmers’ market, however, sprouted seeds are not permitted. Refer to Definitions page for further descriptions of both.

Other foods may or may not be allowed for sale. Approval for questionable products is at the discretion of the Commissioner of the West Virginia Department of Agriculture or his/her designee.

Honey

The sale of honey is permitted at farmers’ markets. The apiarist must be registered with WVDA. The product must be labeled with the following information:

- Common name of the product
- Name and address of processor
- Net weight in U.S. and metric equivalency.
- Ingredients: Needed ONLY if there are other ingredients added to the honey (e.g. honey infused with orange)
- Producers must include the statement “Please do not feed to infants under 1 year of age."

If a producer wishes to sell value-added honey products such as toppings or honey infused with other products, then they must be obtain a WVDA Farmers Market Vendor Permit and have an annual kitchen inspection.
NON-POTENTIALLY HAZARDOUS FOODS

Jams and Jellies

The sale of home-processed dietary jam and jelly is permitted at farmers markets without acquiring for a WVDA Farmers’ Market Vendor Permit as these products are not considered potentially hazardous. Fruits and berries usually associated with jams and jelly are grape, strawberry, raspberry, peach, orange, etc.

No sugar-added and artificially sweetened products do not fall into this category.

Mushrooms

Mushroom species picked or foraged in the wild shall not be offered for sale by a farmer’s market vendor.

1. This guideline does not apply to:
   a. Cultivated mushroom species that are grown, harvested and processed in an operation that is regulated by the West Virginia Bureau of Public Health-Office of Environmental Health (i.e. commercial kitchen);
   b. Mushroom species if they are in packaged form and are the product of a food processing plant that is regulated by the West Virginia Bureau of Public Health-Office of Environmental Health

2. List of approved cultivated mushroom species that can be sold at West Virginia farmers markets with spore source documentation:

<table>

<td></td>
</tr>
</tbody>
</table>
Sauces, Condiments, Preserved and Canned Foods

The sale of home-canned, preserved or processed foods, including non-potentially hazardous jams and jellies is permitted at farmers’ markets.

If the firm is selling at farmers markets and at outlets other than farmers markets (i.e. stores, wholesale, mail order/online across state lines), they may be engaged in interstate commerce and may be required to meet other testing, education and commercial kitchen utilization requirements.

Unsure of where your product fits in?

Call the WVDA Regulatory & Environmental Affairs Division, 304-558-2227, to determine eligibility for sale through all market channels.
A Potentially Hazardous Food (PHF) is a food that requires time-temperature control to keep the food safe for human consumption. A PHF contains moisture (water activity > 0.85), protein and a pH between 4.6 and 7.5. OR are foods that require time-temperature control to keep them safe for human consumption. In general, foods with a water activity greater than 0.85, contain protein and/or are slightly acidic (a pH between 4.6 and 7.5)
Basic Labeling Guidelines

WVDA reviews food product labels for compliance with FDA Guidelines. This section is a basic guideline. Required label information can vary from product to product. Please contact the WVDA Business Development Division at 304-558-2210 or productlabeling@wvda.us for labeling guidance.

General requirements are:

- **Statement of Identity:** The common name of the product
- **Farm/Business/Producer Contact Information:** Name and physical address are required. Email, website and other information can be added here as well
- **Net Quantity Statement:** In the lower 1/3 of the Principal Display Panel (main panel), producers must list the weight in U.S., and metric equivalencies
- **Allergen Statement:** List any of the 8 major allergens that are present in the product. All products containing major allergens must be listed individually.
  - Major allergens are
    - Peanuts
    - Soybeans
    - Milk
    - Eggs
    - Fish
    - Crustaceans
    - Tree Nuts
    - Wheat
- **Ingredients Listing:** Listed in descending order of predominance based on weight. All sub-ingredients must be listed as well in parentheses

A FDA Guide on Labeling can be found at: [https://bit.ly/2LmZECO](https://bit.ly/2LmZECO)

- All farm and food products **that require a Farmers Market Vendor permit** shall include on the label the words “MADE IN A WV ________ KITCHEN” in capital, bold, 10-point type or larger, with the blank space to state whether the product was made in a home, farm, community or commercial kitchen.

- For labeling questions or to request a label review, contact the WVDA at productlabeling@wvda.us or call 304-558-2210.
Baked Goods

Potentially hazardous baked goods include the following that must be time and temperature controlled:

- Meringue, custard or cream pies
- Cheesecake
- Cream-filled cupcakes, donuts, pastries
- Cream cheese-based frostings or fillings.

To sell baked goods and other cottage foods that are considered potentially hazardous, the vendor must obtain a Farmers’ Market Vendor Permit with the WVDA by March 1 to avoid a late fee, or before the date of sale.

Whether these products do or do not present a hazard from a bacteriological standpoint, the food may be contaminated with filth or other extraneous matter. Therefore, the WVDA reserves the right to inspect the home kitchens based on observed health hazards or complaints from a consumer.

WVDA requires that baked goods be pre-wrapped or protected from contamination during display and properly labeled as required by WVDA (refer to Basic Labeling Guidelines).
POTENTIALLY HAZARDOUS FOODS

Dairy Products

Pasteurized milk, cheese and other dairy products may be sold at farmers markets if the following guidelines are followed:

- Vendor has an approved dairy processing plant
- Product is pre-packaged
- Product is kept at appropriate temperatures in coolers, refrigerated vehicles, or freezers with calibrated thermometers
- The vendor must have a valid Food Establishment Permit from the local health department before the date of sale.

Proper dairy product labels must include the following information:

- Fluid milk container must state “Grade A”
- Common name of the hooved mammal producing the milk shall precede the name of the milk or milk product when the product is or is made from other than cattle’s milk, e.g., goat cheese
- Net quantity of contents
- Ingredient list with items in order from most to least
- Allergens listed
- Milk plant name and address, or plant code.

Aged cheese may be made from raw milk (unpasteurized) as long as the cheese is processed in an approved processing facility and aged for at least 60 days at a temperature of 35°F or greater. Aging time and temperature may vary depending upon the type of cheese processed. Contact the WVDA for individual cheese aging requirements.

The sale of raw milk (unpasteurized) for humans or pets is prohibited under West Virginia regulations.
Eggs

A small producer may market up to 150 dozen eggs or less per week of their own production. The producer must register with the WVDA. Small producers must label their cartons with:

- The name and address of the person producing and selling the eggs
- The date the eggs are packed
- The words “Ungraded Eggs” in print of at least five-eighths (5/8) inch

Eggs shall be clean and free of debris and adhering dirt. Eggs shall be transported at no more than 45ºF, unless the time for transportation is less than three hours. Eggs are to be stored and displayed at the farmers’ market in cold-holding equipment capable of holding 41ºF or less. The eggs must reach the 41ºF temperature within four hours of receipt at the market.

Small producers are permitted to pack in recycled or used cartons when the original distributor’s name, address, expiration date, size and grade are marked out and replaced with the labeling required for small producers. Cartons shall be clean and free of odor or debris. More information may be obtained by contacting WVDA.

Any vendor selling eggs shall have a valid Farmers’ Market Vendor Permit from the West Virginia Department of Agriculture and be registered with WVDA as an egg vendor/producer.

Reference: §61CSR19 Egg Marketing Rule, §64CSR30
Fish

Commercially raised and harvested fish may be offered for sale at farmers’ markets. Wild caught fish are NOT allowed. Fish vendors must provide to market managers a certificate of wholesomeness that states for all species of product that the product was farm raised, at what farm it was raised, and whether or not the product was administered FDA-approved medication. These documents must be provided every time fish is brought to the market. The required water tests shall be submitted once per year per water source to insure safe water samples. Markets shall keep a copy of these for two years.

Additional requirements are:

• Raw products must be kept in cold holding equipment capable of holding 41°F or less
• Annual scale certification
• Fish must be gutted at an approved facility
• Fish products must be held, stored and transported in a clean sanitary environment to keep products wholesome.

The vendor shall receive a Farmers’ Market Vendor Permit from WVDA and a food establishment permit from the local health department by March 1 to avoid a late fee or before the date of sale. As part of the routine inspection, the local health department may inspect the storage space of the product off premises of the sales area. Off-premise storage should be in separate designated cold holding equipment that is stored in a clean, safe, and secure environment.

• Labels must be provided for the product that include:
  • Common name of the product
  • Net weight of the product

Refer to §61CSR23A West Virginia Fish Processing Rules under WVDA for additional information.
POTENTIALLY HAZARDOUS FOODS

Fruits and Vegetables

To meet the current FDA Food Safety Modernization Act (FSMA) Produce Safety Rule requirements, farmers selling fresh produce must display a sign at their stall or table, visible to patrons, indicating the name of the grower or farm and their related contact information.

Once cut, many fruits and vegetables are considered potentially hazardous foods. Melons and tomatoes are two examples. These products, once cut, must be held below 41°F. Therefore, if offering cut fruits or vegetables, the vendor would have to obtain a WVDA Farmers’ Market Vendor Permit by March 1st to avoid a late fee or before the date of sale.

**Sprouted seeds** are germinated seeds that are water grown with the stem and seeds to be consumed. Sprouted seeds are NOT allowed for sale at a farmers’ market.

**Micro-greens** are soil grown and with the stem and leaves to be consumed. Micro-greens ARE allowed to be sold at Farmers’ Markets.

Other foods may or may not be allowed for sale. Approval for questionable products is at the discretion of the Commissioner of the West Virginia Department of Agriculture or his/her designee.

Non-Typical Jams, Jellies and Butters

Any jams or jellies not produced from the standard fruits (apple, grape, strawberry, etc.) are required to be sent to Process Authority for water testing. Examples of this may include basil jelly, hot pepper jelly, dandelion and mint jelly.

Hot pepper and some non-typical fruit butters and jellies (i.e. pumpkin and vegetable butters, hot pepper jelly, etc.) are acidified and may require additional ingredients or steps to prevent microbial growth. A Farmers’ Market Vendor Permit issued by the WVDA is required. While these foods may or may not present a hazard from a bacteriological standpoint, the food may be contaminated with filth or other extraneous matter. Therefore, the WVDA reserves the right to inspect the home kitchens based on observed health hazards or complaints from a consumer.

Pumpkin butter and other vegetable butters are dense, low-acid foods and the home canning process does not kill off pathogens in the center of the jar, even when pressure canning.
Meats

Fresh or frozen meats may be sold at farmers markets if the following guidelines are followed:

- All products must be commercially slaughtered under USDA or WVDA inspection, passed, and labeled
- Raw products must be kept in cold holding equipment capable of holding the product at 41ºF or less
- Meat products must be held, stored, and transported in a clean sanitary environment to keep products wholesome

The vendor shall receive a Farmers’ Market Vendor Permit from the WVDA and a food establishment permit from the local health department before the date of sale. As part of the routine inspection, the local health department may coordinate with WVDA and/or inspect the storage space of the product off-premises of the sales area. Off premise storage should be in separate designated cold holding equipment that is stored in a clean, safe, and secure environment.

Labels must be provided for the product that include:
- Common name of the product
- Net weight of the product
- Other information as required by WVDA and USDA safe handling instructions.

Cured, smoked or dehydrated meats for sale at Farmers Markets shall be USDA or WVDA inspected. See 9 CFR 303.1 The vendor must supply appropriate documentation at the point of sale proving the product has been approved.

Producers can contact the Meat and Poultry Division of the WVDA for further questions at 304-558-2206.
POTENTIALLY HAZARDOUS FOODS

Poultry

- Fresh or frozen poultry may be sold at farmers markets if the following guidelines are followed:
  - All poultry products must be either:
    - Commercially slaughtered under USDA or WVDA inspection, passed, and labeled, or
    - Produced under and meeting the requirements of either of the two poultry exemptions recognized in West Virginia.
  - Raw products must be kept in cold holding equipment capable of holding the product at 41ºF or less
  - Poultry products must be held, stored, and transported in a clean sanitary environment to keep products wholesome

The vendor shall receive a Farmers’ Market Vendor Permit from WVDA and a food establishment permit from the local health department by March 1st to avoid a late fee or before the date of sale. As part of the routine inspection, the local health department may coordinate with WVDA and/or inspect the storage space of the product off premises of the sales area. Off-premise storage should be in separate designated cold-holding equipment that is stored in a clean, safe, and secure environment.

Labels must be provided for the product that include:
- Common name of the product
- Net weight of the product
- Other information as required by WVDA and USDA-safe-handling instructions.

WV 1,000 POULTRY PER YEAR EXEMPTION

1. Poultry must be healthy
2. Birds must be slaughtered and dressed in a sanitary manner
3. Birds must be slaughtered on same premises where grown
4. Cannot cross state line
5. May sell to distributor
6. May sell to restaurant
7. May sell to any customer within the state
8. Label must have:
   - Processor’s name
   - Processor’s address
   - Product name
   - Net Weight
   - Safe handling instructions ( uninspected product)
   - Pack date
9. Producer must record number of birds raised and to whom they were sold.
WV 20,000 POULTRY PER YEAR EXEMPTION

1. The producer/grower slaughters/processes no more than 20,000 healthy birds of his/her own raising, on his/her premises in a calendar year.
2. The producer/grower sells/distributes only poultry products he/she prepares under the Producer/Grower 20,000 Poultry Limit Exemption. He/she may not buy or sell poultry products prepared under another exemption in the same calendar year.
3. The poultry products can be sold only within the State of West Virginia. The poultry products may not move in interstate commerce.
4. The poultry are healthy when slaughtered.
5. The slaughter and processing at the producer/grower’s premises is conducted under sanitary standards, practices and procedures that result in products that are sound, clean, fit for human food and not adulterated. (Basic Sanitary Standards)
6. The producer/grower only distributes poultry products he/she produced under the Poultry/Grower Exemption. Note: The producer/grower can also distribute poultry products that he/she raised and had slaughtered/processed under USDA inspection.
7. With the exception of mobile slaughter units, the facility/location used to slaughter or process the poultry is not used to slaughter or process another person’s poultry unless the State Director of Meat and Poultry Inspection grants an exemption.
8. All poultry or poultry products produced under this exemption must be labeled with the following:
   • Processor’s name
   • Address
   • Product name
   • Net weight
   • Safe Handling Instructions (uninspected product)
   • Pack date
9. The producer/grower must keep accurate and legible records for at least two years necessary for the effective enforcement of the Act.
10. A poultry producer who otherwise meets the requirements of the exemption and that slaughters or processes 20,000 or fewer birds per calendar year under the federal Poultry Products Inspection Act, 21 64(c)(3), may not keep a poultry flock of more than 3,000 birds at any one time.

Cured, smoked or dehydrated poultry for sale at Farmers Markets shall be either USDA or WVDA inspected or produced under a food establishment permit from the local health department. See 9 CFR 303.1 The vendor must supply appropriate documentation at the point of sale proving the product has been approved.

Refer to §CSR19 and WVDA for further information.

Producers can contact the Meat and Poultry Division of the WVDA for further questions at 304-558-2206.
RABBITS

WV 20,000 RABBITS PER YEAR EXEMPTION

1. Up to 20,000 rabbits per calendar year may be slaughtered and processed at the premises where they were raised. The resulting rabbit meat products may be sold without inspection within West Virginia. These sales include, but are not limited to, direct sales to individuals, at farmer's markets, restaurants, grocery stores, and wholesales/distributors.

2. Premises where rabbits are raised and procedures used for slaughtering and processing the rabbits must be registered annually with the West Virginia Department of Agriculture (WVDA).

3. No person with a contagious disease can process rabbits.

4. Only healthy rabbits are eligible for processing/sale.

5. Rabbits must be slaughtered using a humane method.

6. Rabbits must be slaughtered and dressed in a sanitary manner.

7. Cooling of rabbits must start immediately after slaughter and rabbits must be chilled to less than 40 degrees within 24 hours.

8. Rabbits may be sold fresh but must be frozen if not sold within 72 hours of slaughter.

9. Equipment used in the slaughter and processing of rabbits must be cleaned and sanitized as necessary but at least daily at the end of use.

10. Rabbit meat products must have a label on each package. The label must include the following information:
    - Processor's name and address
    - Product Name
    - Net Weight
    - Safe handling instructions (Make sure the instructions do not indicate that the product was prepared from inspected and passed meat.)
    - Slaughter Date

11. Please do not include any claims on the package labeling. (You may communicate information about raising practices, breeds, nutritional benefits, etc. on signage at the point-of-purchase or via social media.)

12. Sales and production records must be provided to a WVDA compliance officer/inspector if and when requested. The premises where the exempted rabbit slaughter occurs may be visited by WVDA staff without prior notice.

13. Producers must keep records for a minimum of two years.
Sauces, Condiments, Preserved and Canned Foods

The sale of potentially-hazardous home-canned, preserved or processed foods is permitted at farmers’ markets if the vendor registers with the WVDA for a Farmers’ Market Vendors Permit and has an annual home kitchen inspection or if the products are from an approved food manufacturer.

Salsa, pickled vegetables, sauces and dressings are examples of potentially hazardous preserved foods.

Persons wishing to sell these products shall register with the WVDA by March 1st or before the date of sale.

Contact the WVDA Regulatory and Environmental Affairs Division, 304-558-2227, for more requirement information and to register for a Farmer’s Market Vendor Permit.
Sampling, Chef Demonstrations and Hand Washing Stations

Chef Demonstrations- Farmers markets are not required to obtain a Food Establishment Permit to conduct chef demonstrations or sampling, however the farmers’ market must register with the WVDA and a representative from the market must have taken a WVDA-approved food safety course.

All sampling shall be performed in consultation with the WVDA. The WVDA allows the distribution of samples at Farmers’ Markets provided the farmers’ market ensures that vendors are following the guidance established below in this Farmers’ Market Vendor Guide.

- A representative of the farmers’ market participates annually in a WVDA-approved food safety course
- A handwashing station is used
- Sanitary procedures are followed
- Proper food storage temperatures are maintained
- Appropriate tools for dispensing are used
- Adequate trash receptacles are available
- Samples are not exposed to environmental contaminants or pests

A vendor is subject to inspection by the local health department in the jurisdiction in which the farmers’ market is located. If the local health department determines that the vendor’s food products is misbranded pursuant to W. Va. Code §19-35-5(c), adulterated, or if a consumer complaint has been received.

All sampling and inspection shall be performed in consultation with the West Virginia Department of Agriculture.

Foods that are potentially hazardous such as cut melons, cooked meats, cut vegetables, cut tomatoes, eggs and dairy products may only be offered as samples when the vendor has obtained a Farmers’ Market Vendor Permit issued by WVDA. Non-potentially hazardous foods (foods that do not require temperature control due to pH of <4.6 or water activity of <.85 fall into this category) may be offered as a sample without being a Farmers’ Market Vendor Permit.

Samples may not be exposed to insects or other environmental contaminants. A fan or fly screen may be necessary. No bare hand contact with ready-to-eat food is allowed. Food handlers must wash their hands with soap and water before using deli tissue or gloves to touch the food. All utensils used must be cleaned and sanitized before use and as often as necessary throughout the day.
Hot foods shall be maintained at or above 135°F and cold foods below 41°F unless ‘time as a public health control’ is implemented. A properly calibrated food thermometer must be used to check food temperatures.

Samples must be served individually on plates, in cups, toothpicks or similar items. It is vital that vendors control access to samples so that customers cannot touch any sample that is not theirs. Adequate waste receptacles must be provided. Animals shall not be allowed in any food preparation, or sampling display area.

WVDHHR requires the following minimum **handwashing station** set-up for any farmers’ market that includes sampling or temporary food service.

- Adequate supply of warm water
- 5 gallon cooler with a free-flow spigot
- Catch basin for waste water
- Soap
- Paper towels
- Trash receptacle

“WEST VIRGINIA GROWN”®

West Virginia Grown® is the official marketing and branding program for agricultural products grown or produced in West Virginia. In addition to being a marketing and economic development tool, the program’s goals are for consumers to easily identify and purchase West Virginia products, thereby supporting and promoting our local farmers, producers, manufacturers and agribusinesses. The program also partners with affiliates (restaurants, retail locations, organizations, etc.) to promote and encourage use of West Virginia Grown® products.

Program Requirements

- Products must be totally produced, grown or manufactured in West Virginia or must have a 50% or greater value-added in West Virginia. Please see “Criteria for Food Products” for additional requirements that may apply.
- Membership is made by application to and acceptance from the West Virginia Department of Agriculture (WVDA).
- Membership means producers are interested and willing to make their company/product information publicly available.
- Annual Renewal is required.

Program Benefits

- Recipient of a “Certificate of Membership”
- Access to the “WEST VIRGINIA GROWN”® logo
- Marketing materials available for purchase, at cost, from the WVDA (see promotional materials request form).
- Inclusion in a producer database.
- Promotional coverage through the WVDA’s Market Bulletin and social media platforms.
- Inclusion in the annually printed “WEST VIRGINIA GROWN”® member directory.
- No cost to join.

EMAIL: WVGROWN@WVDA.US
Criteria for “WEST VIRGINIA GROWN”® Food Products

Food products that are accepted by the West Virginia Department of Agriculture (WVDA) must meet the following requirements.

1. Must be made, processed or produced in West Virginia OR have a value-added of 50% or greater.

2. Must be properly labeled and meet “Consumer Packaged Labeling Requirements” provided by the WVDA, WV Division of Labor (Weights and Measures Section) and the United States Food and Drug Administration (FDA).

3. Product labels must have a Certificate of Label Report and be approved by the WVDA and properly applied to containers/packaging. All labels for products must be attractive and consistent, and of the proper size for the approved packaging.

4. Packaging for products must be of the highest quality and appropriate for the product. Tamper-evident sealing is recommended to ensure that products will remain of the highest quality. “Contain Coding” or “Evident Coding” must be shown on the package.

5. Certain food products must be manufactured or processed in an approved kitchen facility. The West Virginia Bureau of Public Health, Office of Environmental Services in conjunction with the United States Food and Drug Administration, grants approval for these facilities. In addition, the manufacturing of the product itself may have to go through a process approval. Copies of this approval process will become part of each company’s file at the West Virginia Department of Agriculture’s Business Development Division.

6. Meat and meat products must be processed and packaged in a facility that is approved and inspected by the United States Department of Agriculture (USDA) or the Meat and Poultry Inspection Division of the WVDA. The labels must be approved by the USDA or the Meat and Poultry Inspection Division of the WVDA. Products must have a valid Meat Distribution Permit.

7. Dairy products, eggs, animal feeds, fertilizer, agricultural limes and seeds must meet additional regulation and labeling requirements. The WVDA Regulatory and Environmental Affairs Division handles the registration and product label reviews for these specific products.

8. Products not regulated by any state or federal agency will not be accepted into the WV Grown Program.
“WEST VIRGINIA GROWN”® Membership Application

West Virginia Grown® is the official marketing and branding program for agricultural products grown or produced in West Virginia. In addition to being a marketing and economic development tool, the program’s goals are for consumers to easily identify and purchase West Virginia products, thereby supporting and promoting our local farmers, producers, manufacturers and agribusinesses. The program also partners with affiliates (restaurants, retail locations, organizations, etc.) to promote and encourage use of West Virginia Grown® products.

“WEST VIRGINIA GROWN”® Trademark Licensing Agreement

This Trademark Licensing Agreement ("Agreement") is made and effective as of this ____ day of ______________, 20___, by and between the West Virginia Department of Agriculture ("WVDA") and

Licensee’s Name: ____________________________________________________________
Address: __________________________________________________________________

("Licensee").

Purpose: WVDA's mission is to promote the marketing and purchase of agricultural commodities grown, produced, processed, packaged, or manufactured in West Virginia. WVDA is the exclusive owner of the trademarked "West Virginia Grown" Name and Logo (the "Name and Logo"). WVDA wishes to license the Name and Logo for the limited purpose of promoting West Virginia agricultural products. This Agreement establishes the terms and conditions of Licensee's use of the Name and Logo.

In exchange for the mutual promises herein and other good and valuable consideration the Parties agree to the following terms and conditions:

1. License. WVDA hereby grants to Licensee a limited, worldwide, non-exclusive, non-transferable, license to use the Name and Logo attached hereto on Exhibit A on, or in connection with, Licensee's product offerings in accordance with this Agreement. As used in this Agreement, the term "Name and Logo" shall include the logo affixed on Exhibit A and the term "West Virginia Grown," or either one of the foregoing.

2. Form of Use. Unless authorized in writing by WVDA, Licensee shall use the Name and Logo only in the form and manner as the same appears in Exhibit A of this Agreement. Licensee shall not modify the shape, color, appearance, text, font, spacing or other aspect of the Name and Logo, nor shall Licensee add images, slogans, text or other elements to, on or around the Name and Logo; provided that Licensee may use the Name and Logo in a size or sizes of its own choosing.

3. Use Review. Upon request by WVDA, Licensee shall submit or make available to WVDA samples of the Licensee's products, artwork, advertising copy, product packages, and depiction of all proposed uses of the Name and Logo.

4. Scope of Use. Licensee shall use the Name and Logo only on products, or the packaging of products, which are produced in West Virginia or have at least fifty percent (50%) value added as a result of processing the product in West Virginia. The Commissioner of Agriculture has the sole and final authority to determine the percentage of value added processing, after reasonable, documented inquiry.

5. Royalty. Licensee shall not be required to pay a royalty, or any other fee associated with this license agreement.

6. Reservation of Rights. The parties to this Agreement recognize and agree that nothing in this Agreement may be construed or argued to have any effect on the WVDA's ownership of the Name and Logo. WVDA expressly reserves the sole and exclusive ownership of the Name and Logo. The Parties agree that, except for the license granted under this Agreement, Licensee shall not have any right, title or interest in or to the Name and Logo. Licensee agrees that it will take no action inconsistent with such ownership and that its use of the Name and Logo shall inure to the benefit of WVDA. WVDA shall retain the exclusive right to apply for and obtain registrations of the Name and Logo and any variations thereof throughout the world. Licensee agrees not to use the Name and Logo, or any confusingly similar mark or name, in its corporate or trade name. Licensee therefore agrees that, except for the rights granted herein, it has no interest in or ownership of the Name and Logo, and further agrees not to register or attempt to register or apply for any trademark, in any jurisdiction, that incorporates the Name and Logo or any confusingly similar mark or name.

7. Website and Directory. Licensee understands that WVDA intends to publish the Information Licensee provides to WVDA on the West Virginia Grown Membership Application in both print and digital directories and on WVDA-approved websites and social media to further the purposes of the West Virginia Grown program. Licensee expressly agrees to such publication.

8. West Virginia Freedom of Information Act. Licensee understands WVDA is a public body that must comply with the West Virginia Freedom of Information Act. All Information Licensee provides to WVDA is subject to public release and publication in all forms of media, for all lawful purposes.

9. Goodwill. Licensee shall not take any action that would tend to destroy or diminish the goodwill in the Name and Logo. Licensee further agrees that its use of the Name and Logo shall not impugn the WVDA, or any of its divisions, or be unreasonably offensive to the general public. Licensee shall not engage, participate otherwise become involved in any activity that diminishes or tarnishes the image or reputation of the Name and Logo.
10. **No WVDA Endorsement.** Licensee expressly acknowledges that use of the Name and Logo does not indicate or suggest that WVDA endorses or sponsors any of Licensee’s products.

11. **Compliance with Laws.** Licensee’s use of the Name and Logo shall comply with all applicable federal, state and local laws, rules and regulations.

12. **Termination.** Unless otherwise terminated by the parties, this Agreement shall remain in full force and effect until further revoked or amended. Either party may terminate this Agreement, with or without cause, by providing fifteen (15) days’ written notice to the other party.

13. **Post-Termination Rights and Obligations.** Should WVDA cease to use the Name and Logo, WVDA shall provide Licensee with written notice to discontinue all use of the Name and Logo. If WVDA or Licensee provides written notice of its intent to withdraw from this Agreement, Licensee shall cease affixing the Name and Logo to promotional items and shall withdraw the Name and Logo from publication, wherever possible.

14. **Infringement Proceedings.** WVDA shall have the sole authority and right to prosecute any infringement and any unauthorized use of the Name and Logo, at its sole option. If Licensee learns of any unauthorized use of the Name and Logo, Licensee shall notify WVDA promptly, and, if requested to do so, shall cooperate with and assist, at WVDA’s expense, in any infringement action that WVDA may bring.

15. **Indemnification.** Licensee shall indemnify, defend and hold harmless the State of West Virginia and WVDA from and against all claims, liabilities or judgments arising out of or in any way connected with Licensee’s activities under this Agreement or Licensee’s use of the Name and Logo.

16. **No Warranty.** WVDA makes no representations or warranties with respect to the Name and Logo.

17. **Applicable Law.** West Virginia law controls this Agreement. All disputes arising out of this Agreement shall be brought in Kanawha County, West Virginia.

18. **Notices.** Any notices required or permitted to be sent by one party to the other under this Agreement shall be sent by certified mail to the addresses specified below, or to such other address as a party shall have furnished in writing to the other party.

a. **To WVDA:**
   West Virginia Department of Agriculture
   Attn: Business Development Division
   1900 Kanawha Blvd., East
   Charleston, WV 25305-0170

b. **To Licensee:** To the address shown underneath Licensee’s name on page one (1) of this Agreement.

19. **Assignment.** Licensee shall not assign or sublicense this Agreement or its rights hereunder without the written consent of WVDA.

20. **Modification and Waiver.** This agreement may not be amended or modified, except by written agreement, signed by both parties. It is agreed that no waiver by either Party hereto of any breach of any of the provisions herein set forth shall be deemed a waiver of any subsequent breach of or default under the same or any other provision of this Agreement.

21. **Severability.** In the event any term or condition of this Agreement is found to be unenforceable by a court of competent jurisdiction, the remaining terms and conditions shall remain in full force and effect.

22. **Integration.** This Agreement contains the entire agreement between WVDA and the Licensee, and supersedes all prior agreements, whether oral or written, between the Parties.

The Parties acknowledge their willingness to be bound by the terms of this Agreement with their signatures below:

**For West Virginia Department of Agriculture:**

________________________________________________________________________

Its: __________________________, this ______ day of _____________, 2019.

**For the Licensee:**

The Davis College of Agriculture, Natural Resources, and Design at West Virginia University provides food testing, process evaluation, and process approval for West Virginia, cottage-industry food companies. These services are being provided to in-state companies free of charge.

A process review of a commercial food product evaluates how a food product is made, including all preparation steps, ingredients, and packaging. A process review is required to assure the U.S. Food and Drug Administration (FDA) that a food product sold commercially sterile will not harm the final consumer.

Acidified foods that are shelf-stable and sold without refrigeration require evaluation by a process authority. This process schedule describes acidification, preservatives, packaging, and heat or cooking (thermal process) used to eliminate microorganisms in the product handled under non-refrigerated conditions. A process authority evaluates this process schedule to determine if that schedule will provide a shelf-stable product. Product pH, water activity, (if applicable), headspace, and container vacuum are measured.

Producers should send 2 samples of each product, preferably in the consumer packaging, that will be marketed (container, etc.) and identified with product name and contact information. These samples will not be returned. Fill out the following form for each product being submitted and send product and form to:
