

## Distributor Notification for VFD Feeds - Instructions

---

The Distributor Notification for Veterinary Feed Direction (VFD) products is a firm's notice to FDA that the firm will be involved in the distribution of these animal feed products. Those firms that should provide this form to FDA include:

- Firms that manufacture VFD products
- Firms that purchase VFD products from the manufacturer for resale
- Firms that purchase VFD products from another distributor for resale

All forms should include the full, legal firm name, mailing address, the name and signature of the firm representative or agent, and the date the form was signed. This is a one-time notification.

By signing this notification, the firm is agreeing with all statements on the form.
